- *Light Weight.*
- *Easy to use.*

DESCRIPTION

The Mini Light Source “*MLS*” series are small handheld battery/AC operated optical light sources which are used as a complement to the “*CATS*” power meter.

There are four models available.

Two multimode models, the M100030M, a calibrated LED source operating at 1300 nm, and the M100080M, a calibrated LED source operating at 850 nm.

Two single-mode models, the M100030S, a calibrated Laser source operating at 1300 nm, and the M100050S, a calibrated Laser source operating at 1550 nm.

Every unit is powered by a 9VDC alkaline battery. An optional AC adapter is available for extended use.

Each unit will run for approximately 15-20 hours on a 9VDC non-rechargeable battery.
